FOR IMMEDIATE RELEASE

## Repair blitz on Saint-Henri Avenue Complete closure over the long weekend

**Vaudreuil-Dorion, October 2, 2018** – Repair work on Saint-Henri Avenue will result in the complete closure of the section under the viaduct, between Harwood and Trestler, during the weekend of October 6th, 7th and 8th. Road users will be directed to follow marked detours.

Although the closure will inconvenience motorists, it was decided to complete the work during the weekend to minimize the impact on the heavier week-day traffic.

Motorists will not be able to access Highway 20 from Saint-Charles or Valois, and vice versa. They will have to take one of the following detours:

- Cité-des-Jeunes / Henry-Ford / Harwood
- Harwood / Highway 30 / Highway 40

At the same time, repairs to the road surface on Saint-Georges and Charbonneau, together with part of Valois will begin in the coming days and will be spread over a period of about four weeks. This area will be accessible to traffic.
