PRESS RELEASE

L'avenir est ICI

FOR IMMEDIATE RELEASE

The City of Vaudreuil-Dorion among the finalists for the 2018 Grands Prix SST awards – Region of Longueuil / Montérégie-Ouest!

Vaudreuil-Dorion, October 12, 2018 – Steadfastly concerned with occupational health and safety, the City of Vaudreuil-Dorion is pleased to announce that it has been chosen as one of the 10 finalists for the region of Longueuil / Montérégie-Ouest for the Grands Prix SST awards. The City had submitted a video of its 2017 achievements in the area of occupational health and safety for the City's different departments—a video produced most notably with the help of the health and safety committees.

Applications were evaluated by a panel of judges consisting of employers, workers and representatives of the CNESST and its partners. Several criteria were taken into consideration including the innovative nature of the project, the level of commitment of employees, risk reduction and proactivity.

Among the 10 finalists, 3 winners will be unveiled during the regional gala, to be held in La Prairie on October 25, 2018.
