Mayor's Blood Drive: objective met!

Vaudreuil-Dorion, November 16, 2018 – The annual Mayor's Blood Drive was held yesterday at Centre Multisports. This year's objective of 205 donors was surpassed, with a total of 212 people generously giving the gift of life.

Mayor Guy Pilon extends his thanks to everyone who participated: "The public came out in droves to express their solidarity by donating. Thank you to all! And, thank you to Nicole Séguin for joining me this year as Honorary President and for her great involvement and generosity."

For several years, the City of Vaudreuil-Dorion has been working with Héma-Québec to help ensure an adequate supply of blood in Quebec hospitals. Healthy individuals ages 18 and over can donate blood every 56 days, for a total of six times per year. Next year, the Mayor's Blood Drive will be held on November 14, 2019.
