FOR IMMEDIATE RELEASE

## Exclusive Show Featuring Maxime Landry kicks off the “Rythmes d’été” Summer Concert Series

**Vaudreuil-Dorion, July 2, 2020** – This year marks the tenth anniversary of Maxime Landry’s career. To mark the event in a special way, the singer-songwriter is launching a brand new show entitled *10 ans déjà*, which will be webcast on the [jesuismozaik.com](http://jesuismozaik.com) platform July 7th at 7:30 p.m.

As you all know, the Rythmes d’été concerts cannot take place at the Parc de la Maison-Valois agora as planned this year, so they will be offered via webcast instead.

Among the numbers presented during this performance designed especially for the Vaudreuil-Dorion audience, Maxime will perform his greatest hits as well as his new compositions. He will be accompanied by his musical partner for the last ten years, the talented pianist Catherine Maurais.

### **A sixth album in ten years**

*10 ans déjà* is a veritable foray into the singer’s personal universe. After giving an open-hearted interview on the show *Y’a du monde à messe*, last November Maxime gifted us with a touching, thought-provoking album that warms the heart. True to form, he relies on great purity and precision to interpret his texts, which we can all so easily relate to. This is a show that blends piano arrangements with a sometimes soft, sometimes powerful voice and words that send shivers up your spine.

On this new opus, Maxime Landry celebrates the years that have passed since the release of his first album *Vox Pop* in December 2009, which made the top of the charts and sold more than 200,000 copies. In fact, Maxime decided to give a nod to this album by interpreting a solo version of *Cache Cache* on the piano, a touching song given to him by his great friend Lynda Lemay.

The public is invited to take this opportunity to discover the world of Maxime during the first summer concert of the season, July 7 at 7:30 p.m. Please note that the webcast will not be available for replay.
