**FOR IMMEDIATE RELEASE**

## **Intersection at boulevard de la Gare / boulevard de la Cité-des-Jeunes Planned Changes to Traffic Lights Means Good News for Motorists**

**Vaudreuil-Dorion, December 4, 2020** – After more than four years of negotiations with the Quebec Ministry of Transport (QMT), the City of Vaudreuil-Dorion is pleased to announce that the left-hand priority turn at the corner of Boulevard de la Gare and Boulevard de la Cité-des-Jeunes (near the site of the former Flying J) will finally be added to the traffic light sequence.

Over the years, several complaints had been made by motorists with respect to the dangerous nature of this intersection and the endless wait to turn left from Boulevard de la Gare onto Boulevard de la Cité-des-Jeunes during rush hour. "The City was fully aware of the issue and if this traffic light had been our responsibility, the traffic light sequence would have been changed a long time ago. This intersection is under the responsibility of the provincial government so we had to wait for the Ministry of Transport to provide authorization. After making several more requests, our Director General was able to finalize an agreement with the QMT last week", said Mayor Guy Pilon.

Changes to traffic signal programming should be made by December 18, according to the Ministry of Transport.
